RBA 8847-428 CLOSE COUPLED SUITE TO SUIT DISABLED CODE**

RBA8847-100 Toilet Suite with RBA8186-100 seat shown

INSTALLATION

1. Installation to be in accordance with all local and statutory requirements.
2. Remove the access panels in the sides of the pan, using the security bit provided. Install the pan using the 'S' clip provided to secure the pan to the floor. Secure the pan to the wall, with suitable anchors provided by others.
3. If 'S' trap, make connection using the fitting supplied.
4. Cut the flush pipe such that it extends 40mm beyond the inlet socket. Fit the 'O' ring provided as close as possible to the end of the pipe and push the pipe, allowing the ring to roll into the socket.
5. Mount the cistern, secure to the wall using the fixings provided, and make the necessary water connections. Ensure that the outlet compression nut is tightened.
6. Sit the cistern cover in position on top of the pan, mark the top of the cover, and the location of the holes in fixing lugs on the bottom of the cover. Remove the cover and fix the 'S' clip provided to the wall, such that it engages the return edge of the cover. Drill and plug the holes for the bottom of the cover.
7. While holding the domed cistern push buttons in position in the cover, slide the cover into position, ensuring that the 'S' clip is engaged. Secure the bottom of the cover with screws provided by others.
8. Check for correct operation and leaks.
9. If supplied, fit the seat and replace the access panels.
10. Suite should be installed only with the cistern provided: Stylus Symphony
