RBA supplies both 40° or 90°, 2 wall Grab Rails with integrated Polyurethane Backrests. For more information please see our website.

Installation

Grab Rails are no stronger than the anchors or walls to which they are attached and must be firmly secured in order to support the loads for which they are intended.

Important: Installation instructions and current rough-in details should be furnished with each fixture. Do not rough in without certified dimensions. Dimensions are subject to manufacturer's tolerance of +/-10mm.

As improvements in the design and performance of RBA products are continuous, specifications may be subject to change without notice. The illustrations and descriptions herein are applicable to production as of the date of this Technical Data Sheet. Revised 08/14
